- ✔ Git & Github
- ✔ Figma

PROJECTS

Netflix

https://github.com/Lucia-Ay/Netflix
https://netflix-lucia-ay.vercel.app

Built a Netflix clone using React, React Router, Redux, SCSS & TMDB API. Features: search, trailers, filtering & sorting movies/Tv-shows by different categories, and much more.

AI-Summarizer

https://github.com/Lucia-Ay/AI-Summarizer
https://sumz-lucia-ay.netlify.app

Built an AI article summarizer using React, Redux Toolkit, Rapid API, and Tailwind CSS. Summarizes web articles and stores link history.

Cookpad

https://github.com/Lucia-Ay/Cookpad
https://cookpad-recipes.netlify.app

Developed a multipage recipe site, using Edamam API, vanilla JavaScript, and CSS. Includes search, save functionalities, and various filters for dietary preferences, cuisines, ingredients, and preparation time, offering an extensive culinary experience.

Meteoreo

https://github.com/Lucia-Ay/Meteoreo
https://meteoreo.netlify.app

Crafted a feature-rich weather app using vanilla JavaScript, powered by the Openweather API. It delivers extensive forecast details for any city, ensuring a seamless and informative user experience.
